

BERRY INDUSTRIES

A NOTCH ABOVE THE REST

For over 40 years, Berry Industries has been manufacturing the highest quality notchers available. We pride ourselves on our precise workmanship in standard or custom-built models – made just right to suit your needs. Our industry expertise, capable manufacturing know-how and courteous, friendly service get your job done.

- Low Initial Cost – Competitively priced equipment – give us your specifications, we'll give you a quote!
- Easy Installation – Will operate with a minimum 1 HP air compressor at 80-120 PSI.
- 75% Labor Cost Savings – Hand adjustable – no tools needed – so reconfiguration time is minimal. Cycle time is one second!
- 16 Gauge Capacity

Berry Portable Notcher

This completely air-powered bench model is easily portable for convenient on-site installation. This scaled down notcher offers all the punch of our larger floor models. Many standard or customized notching patterns are available.

■ Filter/regulator/lubricator is assembled and tested at the factory.

■ Clean-cut notches from standard, custom or drive cleat end-notch heads.

Satisfaction Guaranteed
Our quality, experience and workmanship are first rate. All parts are guaranteed to perform to your satisfaction.

One-Year Factory Warranty

Berry Industries reserves the right to make engineering changes and to discontinue items at any time without notice.

- Interchangeable heads offer greater flexibility
- Portable for on-site use
- 100% air powered (no electricity required)
- Drive cleat end-notch head available
- Capable of running custom applications
- Foot pedal operation – frees your hands
- Safety guard protects the operator
- Heads are interchangeable with our larger floor models
- Easily fits any standard or custom head
